• Internship Task 4 :

1. Code

1.1 Step 1 :

```html
<!DOCTYPE html>
<html>
<head>
   <title>Step 1 Form</title>

   <style>

      .form-box {
         width: 70%;
         margin: 30px auto;
         border: 2px solid #ccc;
         padding: 25px;
         border-radius: 8px;
         background: #ffffff;
      }

      h2 {
         margin-bottom: 15px;
         font-family: Arial;
      }

      .row {
         display: flex;
         gap: 20px;
         margin-bottom: 15px;
      }

      .row input,
      .row select {
         width: 50%;
         padding: 12px;
         border: 2px solid #ccc;
         border-radius: 6px;
         box-sizing: border-box;
         font-size: 15px;
      }

      .full input {
         width: 100%;
         display: flex;
         padding: 12px;
         gap: 20px;
         border-radius: 6px;
         margin-bottom: 15px;
         border: 2px solid #ccc;
         box-sizing: border-box;

      }

      button {
         padding: 12px 20px;
         font-size: 17px;
```

```html
            color : #7c7676;
            border-radius: 6px;
            border: 2px solid black;
            background: white;
            cursor: pointer;
            border: 2px solid #7c7676;

        }

        button:hover {
           background: #f3f3f3;
        }

    </style>
</head>

<body>

<div class="form-box">

    <h2>Personal Information</h2>

    <div class="row">
        <input type="text" placeholder="First Name">
        <input type="text" placeholder="Middle Name">
    </div>

    <div class="row">
        <input type="text" placeholder="Last Name">
        <input type="text" placeholder="Phone Number">
    </div>

    <div class="row">
        <input type="email" placeholder="Email">
        <input type="date" style="color: #7c7676;" placeholder="Date of Birth">
    </div>

    <hr></hr>

    <h2>Guardian Details</h2>

    <div class="row">
        <input type="text" placeholder="Guardian Name">
        <input type="text" placeholder="Relation">
    </div>

    <div class="full">
        <input type="text" placeholder="Guardian Phone Number">
    </div>
    <div class="full">
        <input type="email" placeholder="Guardian Email">
    </div>

    <br>

    <button>Next →</button>
</div>

</body>
</html>
```

1.2 Step 2 :

```html
<!DOCTYPE html>
<html>
<head>
    <title>Step 2 Form</title>
    <style>
        .form-box {
            width: 70%;
            margin: 30px auto;
            border: 2px solid #ccc;
            padding: 25px;
            border-radius: 8px;
            background: #ffffff;
        }
        h2 {
            margin-bottom: 15px;
            font-family: Arial;
        }

        .row {
            display: flex;
            gap: 20px;
            margin-bottom: 15px;
        }
    .row input,
     .row select {
            width: 50%;
            padding: 12px;
            border: 2px solid #ccc;
            border-radius: 6px;
            box-sizing: border-box;
            font-size: 15px;
        }
        .full input {
            width: 100%;
            display: flex;
            padding: 12px;
```

```css
        gap: 20px;

        border-radius: 6px;

        margin-bottom: 15px;

        border: 2px solid #ccc;

        box-sizing: border-box;

      }

      button {

        padding: 12px 20px;

        font-size: 17px;

        color :  #7c7676;

        border-radius: 6px;

        background: white;

        cursor: pointer;

        border: 2px solid #7c7676;

        float:right;

      }

      button:hover {

        background: #f3f3f3;

      }

    </style>

</head>

<body>

<div class="form-box">

    <h2>Address Details</h2>

    <h3>Permanent Address</h3>

    <div class="full">

        <input type="text" placeholder="Address Line">

    </div>

    <div class="row">

        <input type="text" placeholder="City">

        <input type="text" placeholder="Pin Code">

    </div

    <hr></hr>

    <h3>Temporary Address </h3>

    <div class="full">
```

```html
        <input type="text" placeholder="Address Line">
    </div>

    <div class="row">
        <input type="text" placeholder="City">
        <input type="text" placeholder="Pin Code">

    </div>

    <div class="full">
        <input type="text" placeholder="State">
      <input type="text" placeholder="Country">
            </div>
    <br>
    <button>Next →</button><br><br>
</div>
</body>
</html>
```

1.3 Step 3 :

```html
<!DOCTYPE html>
<html>
<head>
    <title>Step 3 Form</title>

    <style>

        .form-box {
            width: 70%;
            margin: 30px auto;
            border: 2px solid #ccc;
            padding: 25px;
            border-radius: 8px;
            background: #ffffff;
        }

        h2 {
```

```css
    margin-bottom: 15px;

    font-family: Arial;

}

.row {

    display: flex;

    gap: 20px;

    margin-bottom: 15px;

}

.row input,

.row select {

    width: 50%;

    padding: 12px;

    border: 2px solid #ccc;

    border-radius: 6px;

    box-sizing: border-box;

    font-size: 15px;

}

.full input {

    width: 100%;

    display: flex;

    padding: 12px;

    gap: 20px;

    border-radius: 6px;

    margin-bottom: 15px;

    border: 2px solid #ccc;

    box-sizing: border-box;

}

button {

    padding: 12px 20px;

    font-size: 17px;

    color :  #7c7676;

    border-radius: 6px;
```

```css
            border: 2px solid black;

            background: white;

            cursor: pointer;

            border: 2px solid #7c7676;

            float:right;

        }

        button:hover {

            background: #f3f3f3;

        }

    </style>

</head>

<body>
```

```html
<body>
<div class="form-box">
    <h2>Education Details</h2>
     <h3>Graduation</h3>
    <div class="full">
        <input type="text" placeholder="Name">
    </div>

    <div class="row">
        <input type="text" placeholder="Percentage">
        <input type="text" placeholder="Passsing Year">
    </div>
 <h3>HSC</h3>
    <div class="full">
        <input type="text" placeholder="Name">
    </div>

    <div class="row">
        <input type="text" placeholder="Percentage">
        <input type="text" placeholder="Passsing Year">
    </div>

     <h3>SSC</h3>
    <div class="full">
        <input type="text" placeholder="Name">
```

```html
    </div>

    <div class="row">
        <input type="text" placeholder="Percentage">
        <input type="text" placeholder="Passsing Year">
    </div>
    <br>
    <button>Next →</button><br><br>
</div>
</body>
</html>
```

1.4 Step 4

```html
<!DOCTYPE html>
<html>
<head>
    <title>Step 4 Form</title>

    <style>
.form-box {
        width: 70%;
        margin: 30px auto;
        border: 2px solid #ccc;
        padding: 25px;
        border-radius: 8px;
        background: #ffffff;
    }

    h2 {
        margin-bottom: 15px;
        font-family: Arial;
    }
    h4{
        margin-bottom: 15px;
        font-family: Arial;
    }
```

```css
.row {
    display: flex;
    gap: 20px;
    margin-bottom: 15px;
}

.row select {
    width: 50%;
    padding: 12px;
    border: 2px solid #ccc;
    border-radius: 6px;
    box-sizing: border-box;
    font-size: 15px;
}

.full select {
    width: 100%;
    display: flex;
    padding: 12px;
    gap: 20px;
    border-radius: 6px;
    margin-bottom: 15px;
    border: 2px solid #ccc;
    box-sizing: border-box;
}
button {
    padding: 12px 20px;
    font-size: 17px;
    color : #7c7676;
    border-radius: 6px;
    border: 2px solid black;
    background: white;
    cursor: pointer;
    border: 2px solid #7c7676;
    float:right;
}
button:hover {
```

```html
        background: #f3f3f3;
      }
    </style>
    </style>
</head>
<body>
<div class="form-box">
    <h2>Course Details</h2>
      <h4>Course Name</h4>
    <div class="full">
      <select>
        <option>Information Technology</option>
        <option>Computer Science</option>
        <option>Civil</option>
        <option>ENTC</option>
        <option>Electronics</option>
      </select>

    </div>
      <h4>Course Duration</h4>
    <div class="full">
     <select>
       <option>6 months</option>
       <option>12 months</option>
       <option>24 months</option>

            gap: 20px;

            border-radius: 6px;

            margin-bottom: 15px;

            border: 2px solid #ccc;

            box-sizing: border-box;

        }

        .action-row {

            display: flex;
```

```css
      justify-content: space-between;

      align-items: center;

      margin-top: 20px;

    }

    .prev-link {

      background: none;

      font-size: 20px;

      border: none;

      color: #7c7676;

      font-size: 15px;

      cursor: pointer;

      text-decoration: none;

    }
    button {

      padding: 12px 20px;

      font-size: 17px;

      font-size: 20px;

      color :  #7c7676;

      border-radius: 6px;

      border: 2px solid #ccc;

      background: white;

      cursor: pointer;

    }
    button:hover {

      background: #f3f3f3;

    }
  </style>
</head>
<body>
<div class="form-box">
```

```html
<h2>Preview Your Details</h2>

<div class="summary-box">Personal Information</div>

<div class="summary-box">Guardian Details</div>

<div class="summary-box">Address Information</div>

<div class="summary-box">Education Background</div>

<div class="summary-box">Course Details</div>

<div class="action-row">

    <a href="step4.html" class="prev-link">← Previous</a>

    <button type ="submit">Submit</button>

</div>

</div>

</body>

</html>
```

2. Step By Step Explaination :

1. HTML Document Structure

- <!DOCTYPE html> tells the browser that this document is written in **HTML5**.

- <html> is the **root element** that wraps the entire webpage.

2. <head> Section

Purpose:

- Contains **page information**, not visible content.

- <title> sets the **browser tab name**.

- <style> contains **internal CSS** used to design the form.

3. CSS Styling Explanation

- Creates a **centered container** for the form.

- width: 70% → form takes 70% of screen width.

- margin: 30px auto → centers the form horizontally.

- border-radius → rounded corners.

- padding → space inside the box.

h2

h2 {

   margin-bottom: 15px;

   font-family: Arial;}

- Styles section headings.

- Adds space below headings.

- Uses **Arial font**.

- Uses **Flexbox** to place inputs **side by side**.

- gap creates space between input fields.

- margin-bottom adds spacing between rows.

Inputs inside .row

- Each input takes **50% width**, forming two columns.

- padding improves readability.

- Rounded borders for modern look.

.full input

- Used for **full-width input fields**.

- width: 100% makes the input span the entire row.

Button Styling

- Styles the **Next** button.

- cursor: pointer changes mouse icon on hover.

- Rounded and clean UI style.

- Changes background color when hovered.

4. <body> Section

- All visible content is inside <body>.

- .form-box wraps the entire form layout.

5. Personal Information Section

<h2>Personal Information</h2>

- Section heading.

Input Fields

- Two text fields placed **side by side**.

- placeholder shows hint text inside the input.

Other fields include:

- Last Name

- Phone Number

- Email

- Date of Birth

6. Horizontal Line

<hr>

- Creates a **horizontal divider** between sections.

7. Guardian Details Section

<h2>Guardian Details</h2>

- Contains guardian information.

- Uses .full class to make inputs **100% width**.

8. Button

<button>Next →</button>

- A navigation button for moving to the **next step** of the form.

- Arrow symbol improves user experience.

Form Container (.form-box)

- Creates a **centered preview box**.

- width: 40% keeps the preview compact.

- margin: auto centers it horizontally.

- Border and rounded corners improve appearance.

Heading Style

- Adds space below the heading **"Preview Your Details"**.

Summary Boxes (.summary-box)

- Each box represents one **section summary**.

- width: 100% makes it full width.

- display: flex helps align content neatly.

- padding and border create a card-like look.

Step 4: Action Row Layout

- Places **Previous link** and **Submit button** on the same line.

- space-between pushes them to opposite ends.

Step 5: Previous Link Styling

- Styled to look like a **text button**.

- Used for navigation to the previous step.

Step 6: Submit Button Styling

- Creates a clean **Submit** button.

- Hover effect improves user experience.

Step 7: Body Content

<div class="form-box">

- Wraps all content inside the styled container.

Preview Sections

<div class="summary-box">Personal Information</div>

<div class="summary-box">Guardian Details</div>

<div class="summary-box">Address Information</div>

<div class="summary-box">Education Background</div>

<div class="summary-box">Course Details</div>

- Displays **summary headings** of all previous form steps.

- Used for **final review before submission**.

Step 8: Navigation and Submission

<div class="action-row">

    ← Previous

    <button type="submit">Submit</button>

</div>

- **Previous** link takes the user back to Step 4.

- **Submit** button submits the form data.
